

**WELCOME**  
**TO**  
**ARTHIK UDAY**

# MESSAGE FROM THE FOUNDER

Dear Friends,

Today, I am here to talk about the "Rakh Unchi Vichar" (High Thinking) initiative. It is this very thought and initiative that has led to the establishment of the Arthikuday Family today. Families, whose financial situation is not strong, are unable to enroll their children or themselves in good institutions. As a result, such individuals are deprived of various types of education and opportunities, leading to unemployment in their lives. However, now, through this organization (**Arthik Uday**), using the **Arthik Uday** online helping platform & Education, more and more people can be educated in different fields according to their interests online. The new **Arthik Uday** online helping platform aims to economically empower them, allowing them to receive flexible education while simultaneously becoming financially strong, establishing their own employment, and providing happiness to their families. They will be able to realize their dreams, thereby contributing to the growth of our nation. The foundation of a happy and prosperous society is laid here. And with this platform, all people can experience a joyful life. The main aim of establishing this organization is to strengthen financially weak people through Healing Platform. Only then can the entire society understand the real meaning of independence. Today, even after so many years of independence, there are crores of people in the country who are economically, socially, and mentally very backward. Those who do not have any means of income and are forced to live a life of extreme misery. Through financial empowerment, they can be brought into the mainstream of society and can realize their dreams. Hence, we request all of you to join this noble cause (financial empowerment) and help your families and friends achieve their dreams include your family and people around you in this noble cause, and make everyone financially strong and self-reliant.

# OUR MISSION

To create the India's first online helping and e-education platform through which we will make the individual educated and self independent and self reliant. Where individuals can directly provide and receive financial assistance for personal needs, and thus to build a community of people for humanity who work in a spirit of mutual help and cooperation.

# OUR VISION

## OUR VISION

The vision of "**Arthikuady**" is to educate as many people as possible from all corners of the country through this platform in various fields of education via different courses, enabling them to become capable of self-employment in those fields. This would allow individuals to earn a livelihood for themselves and their families independently and become self-reliant entrepreneurs.
